## **Intent of Rules**

If a portion of an exhibit booth extends above 8 feet high, the exhibit booth background will detract from the overall impact of the exhibit directly behind that booth regardless of how the rear of the offending exhibit is finished.

Each exhibitor is entitled to a reasonable sight line from the aisle regardless of the size of exhibit. Exhibitors with larger space should also be able to effectively use as much of the floor space as possible if they do not interfere with the rights of others. The limitation on display fixtures over 4 feet and within 10 feet of a neighboring exhibit accomplish both aims.

**Exception to these rules: only by written permission of Show Management.**

## **Enforcement of Rules**

**No exhibit will be permitted which interferes with the exhibits of other exhibitors or obstructs the visibility of other exhibits. Exhibits must be confined to the exact space allocated.**

A marshal will be on staff during move-in to monitor the construction of booths. **Where an exhibitor's display is built beyond limitations, Show Management will have the exhibitor alter, remove or rearrange any or all the display so that it will comply with the regulations or, if the exhibitor is not available, to make such corrections at the exhibitor's expense.** These restrictions have been designed not to curb creativity of design, but to ensure that the overall appearance of the show will be **clean, clear and unclutter**
